## Introduction of the 24 frescoes

What the sciences of this world call the « universe » or even the « Universe » (with « U » capital letter), is only OUR universe, one among an [infinity](#) of others in the [TOTAL Universe](#). This one is the [TOTAL Reality](#), the [TOTAL Being](#), the [Supreme Being](#), the [Set of all things](#) and of [all beings](#). It is his (I say HIS) scientific definition, that is what science should have posed as first definition, that is what should have been its [Paradigm](#).

The [TOTAL Universe](#) is noted [U](#) as « [Universe](#) », but also [O](#), and we soon will understand why. He (I say He) is more than the concept of « [Universe](#) » as it is usually conceived. As already said, He is the [TOTAL Reality](#), the [TOTAL Being](#), and He is [ALIVE](#) ! More than that, He is himself the [LIFE](#) ! He is the scientific definition of the [Supreme Being](#), called [GOD](#) in the Bible.

The definition of [GOD](#) in the Genesis, the first book of the Bible, is that He is the [Creator](#) of [all things](#) (Genesis1 : 1). That is true, of course, but it is not all the truth. The [powerful truth](#) is expressed in the Revelation, the end of the Bible. This one says that [GOD IS](#) the [Alpha](#) and the [Omega](#), and before that the Exodus said that His name is « [I AM](#) » (Exodus 3 : 13-15). The full meaning of this name is given in the Revelation: « [I AM the Alpha and the Omega](#) » (Revelation 21 : 6).

The [TOTAL Universe](#) is the [Element](#) and the [Set](#), the [Single One](#). As [Element](#) He is called the [Alpha](#) or [A](#) or [O](#). He is the [Single Element](#) who (I say who) forms all things by simple iteration or repetition of himself : [A](#), [AA](#), [AAA](#), [AAAA](#), ..., that is to say : [U](#), [UU](#), [UUU](#), [UUUU](#), ..., or : [O](#), [OO](#), [OOO](#), [OOOO](#), .... And He is also the [Set](#) of all that [infinity](#) of [things](#), the [Single Set](#), the [Omega](#) or  $\Omega$  or  $\omega$ .

The operation which consists in [creating all things](#) by simple [iteration](#) of only [one thing](#), we call that the [generation](#). The [things](#) thus formed by [generation](#) are called the [generescences](#). The [single element](#) [U](#) who (I say who) is iterated to [generate all things](#) is called the [generator](#). So, the [TOTAL Universe](#) is the [Generator of all things](#). His name is : « [He IS](#) ». His name is : « [I AM](#) ». His name is the verb «[To BE](#) ». He [generates himself](#), He [generates all things](#) from [himself](#), so He is all what He [generates](#). He [IS](#) the [Element](#) or the [Alpha](#) who [generates all things](#), and He [IS](#) the [Set](#) or the [Omega](#) who is [generated](#). [Any thing](#) in the [TOTAL Universe](#) is a [generescence](#). The [generescences](#) are the [absolute concept of energy](#), I call [unergie](#). It is the [energy that is everything](#) and that [does everything](#), the [divine energy](#), the [vital energy](#), the [alive energy](#), the [energy that is life](#). The [unergy](#) is what is called the [Holy Spirit](#) in the Bible (Matthew 3 : 15-17 ; 28 : 19). The [TOTAL Universe](#), [GOD](#), is the [Supreme Generescence](#), the [Unergy](#), the [Life](#).

The title [AUΩ](#) or [AOΩ](#) means: « [A = U = Ω](#) » or: « [A = O = Ω](#) », and that formula means: « [I am the Alpha and the Omega](#) » (Revelation 21 : 6).

So the **TOTAL Universe** we are talking about now, the **True GOD**, is more than the simple **Creator** of **all things**, as you understood the Bible until now. In fact, He **IS all things**, from the **first one** (the **Alpha**) to the **last one** (the **Omega**), He **IS** the **Supreme Being**! When I say « **thing** » or « **being** », that means **things** or **beings** you know in this universe. But above all, that means the **infinity** of **things** and **beings** you don't know, the **infinity** of **divine universes** that are very different from this fallen, false and fake universe we know, the matrix of the Devil.

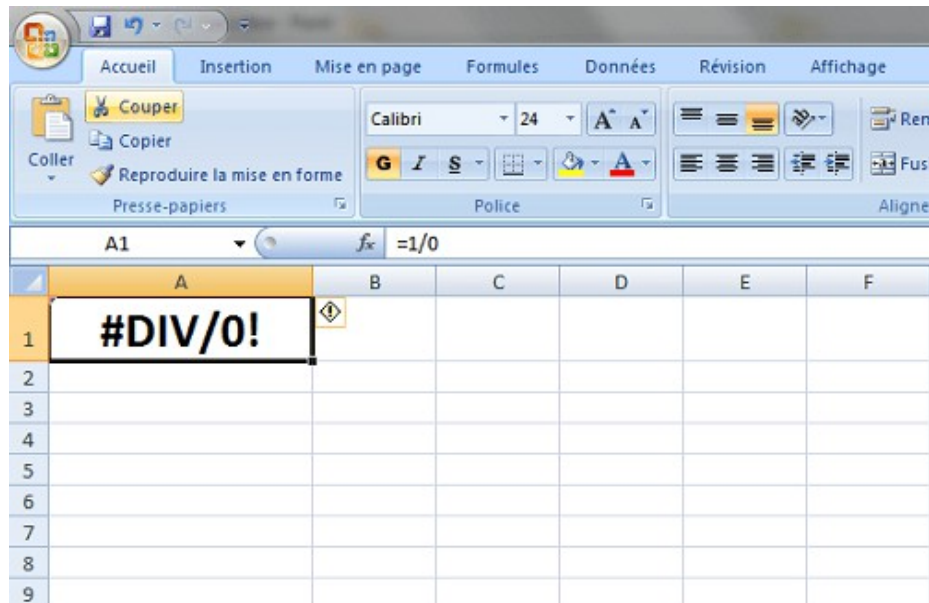

The **Infinity** is now called **Omega** and noted  $\Omega$  or  $\omega$ , and also **W** or **w**. Please, forget the devilish and fake infinity that is currently noted «  $\infty$  ». It is fake because it is not a **number**, it is not the simple **division of 1 by 0** or «  $1/0$  » it should have been. In other words, it should be « **U/A** » or « **U/Alpha** ». But here the proof of the falseness of that infinity, and also the proof of the falseness of the current mathematics and sciences :

Since the elementary school, you learned that it is impossible to **divide by 0**, and when you try to do the operation «  $1/0$  » or «  $1 \div 0$  » with any calculating machine, including the most powerful supercomputers in this world, you get an answer that you made a mathematical error (as shown in the image above), but in fact it is the current mathematics and sciences which are false.

Here the answer of a famous spreadsheet, if you ask it to do the operation : «  $1/0$  » or «  $1 \div 0$  ». It is not the only one to give you that kind of answer, because all the calculating tools and all the current technologies tell you the same thing:

You learned the four fundamental operations of arithmetic : the [addition](#) (+), the [soustraction](#) (−), the [multiplication](#) (×) and the [division](#) (/ or ÷). With the first three operations, you learned to calculate for example : « 1 + 0 », « 1 − 0 », « 1 × 0 ». But with the fourth, « 1 ÷ 0 », you were told that it is impossible. But know now that there is absolutely no reason that the first three are possible, but not the fourth!

Sorry to reveal you that the current sciences and technologies are those of the Devil, they are false in their bases, in their paradigms. The Devil says in his sciences that the [division by 0](#) is impossible. But in fact, he is simply denying the [Omega](#) in science, he is denying the [TOTAL Universe](#), the [Supreme Being](#), the [True GOD](#). His world is lying to you, saying that [GOD](#) cannot be a matter of science, whereas [GOD](#) himself is the [Science](#) !

You learned the sciences of the Devil, and he is showing you now his frescoes, such as the ones you can see at the Denver airport or the Bank of America. These frescoes and many other ones and shows in the world these end times announce very horrible things. Please, stop sleeping and being blind. Now, the [Divine Science](#), announcing the [Divine World](#), the [new Universe](#), the [new heavens](#) and the [new earth](#) (Revelation 20: 1-3, 10-15; 21 : 1-8). Now, the [New Genesis](#).

The first instrument you need to understand and do the [Divine Science](#) is the [compass](#). With a [compass](#) you draw a [circle](#), you start with a point, the [point Alpha](#), and you finish the [circle](#) at a point, the [point Omega](#), which is also the [point Alpha](#).

If you have understood that, you also started to understand the [divine logic](#), the [Divine Science](#). It is very simple, as simple as to say: «A = U = Ω» or « Alpha = GOD = Omega» or again: « I am the Alpha and the Omega ». To say that the [TOTAL Universe](#) is the [Cycle](#), the [Alpha](#) and the [Omega](#), means that He is the [First](#) (the [first thing](#), the [first being](#)) and the [Last](#) (the [last thing](#), the [last being](#)), the [Beginning](#) and the [End](#), the [Zero](#) and the [Infinity](#), the [Vacuum](#) and the [Universe](#), the [Nothingness](#) and the [Existence](#).

The symbol **U** means the **TOTAL Universe**, the **ONE** or **1**, the **Single GOD**. And the symbol **O** represents the **Circle**, and more generally the **Cycle**, that is to say any **thing** whose **beginning** is also the **end**, so any **thing** that has the property to be the **Alpha** and the **Omega**. And the symbol **O** also means the **new Zero** (0), which is a **Cycle**, because it is also the **Infinity**. It is the **Origin** that is the **End**, the **Alpha** that is the **Omega**.

So, to say: «**U is the Alpha and the Omega**», or simply: «**A = U = Ω**», is to say that **U** is the **Cycle** or **O**. And that also means that **U** is the **Fractal**, precisely what I call a **generescent fractal** or a **Fractal n**. This means that **n models X** of the structure form a **greater model X**. So the formula of the **generescent fractal** or a **Fractal n** is: **X = nX**. For example, the Triangle of Sierpinski is a **generescent fractal**, a **Fractal 3**, whose formula is: **X = XXX** or **X = 3X** or simply: **1 = 3**:

We have the **identity**: **G == ggg** or **G == 3g**, and the **small model g** and the **great model G** are exactly the same **fractal**, they are **equivalent**, what we express with the **equivalence**: **G = 3G** or simply: **1 = 3**.

In the current mathematics and sciences (the sciences of the Devil), an equation in the set **R** of **real numbers** such as: **X = 3X** or **x = 3x**, has only one solution: **X = 0** or **x = 0**. And also the « 0 » these sciences are talking about is the devilish « 0 », the « 0 » that is only « 0 ». It is the devilish vacuum, the devilish nothingness.

But as we can see it with the [fractal logic](#) (and the [cyclic logic](#) the [frescoes](#) will show), a [thing](#) can be [0](#) and yet also be [1](#), and [2](#), and [3](#), and the [infinity](#)! We can see in the picture above that the [models](#) called « [0](#) » (« [O](#) »), or « [0<sup>2</sup>](#) » (« [O<sup>2</sup>](#) »), and generally « [0<sup>n</sup>](#) » (« [O<sup>n</sup>](#) »), are infinitely small and yet always are the same [fractal U](#) ! They all are [ONE](#), they are [1](#)! In [fractal](#) or [cyclic logic](#), in the [divine logic](#), the [divine algebra](#), any [number X](#) is the solution of the equation:  $X = 3X$ . We have in particular:  $0 = 3 \times 0$ , for [0](#), but also:  $1 = 3 \times 1$ , for [1](#), and  $2 = 3 \times 2$ , for [2](#), and so on. That is the [algebra](#) of [generescences](#), of the [generescent fractal](#), the [divine algebra](#).

As already said, the word « [generescence](#) » means a [set](#) formed by [iteration](#) of only [one element](#). For example, if we have to form words with only one letter, « [a](#) », the words we can form are: [a](#), [aa](#), [aaa](#), [aaaa](#), .... These words are [generescences](#), I also call [unary information](#). And we can easily see that these [generescences](#), we note: [1a](#), [2a](#), [3a](#), [4a](#), ..., I call the [generescences](#) of [unit a](#) (in opposition to the « [bit](#) » of the current binary data processing), can be seen as the definitions of the [numbers](#): [1](#), [2](#), [3](#), [4](#), .... Whatever is the [unit](#), the logic is the same.

A [generescent fractal](#) is the [iteration](#) of only [one element](#), and that [element](#) is in its turn a [generescence](#), and so on. If each time we repeat the [element n](#) times to have the [great](#) next higher [model](#), so the [generescent fractal](#) is called a [Fractal n](#). With the example above (the case of the Triangle of Sierpinski), we see that [3 models](#) form a [greater model](#), so it is a [generescent fractal](#), here a [Fractal 3](#). Any [model](#) is exactly the same [fractal](#), we don't care about the size of the [models](#). Only the [model](#) is important, its [structure](#), its [fundamental properties](#). In that vision of [things](#), all [circles](#) are [equivalent](#), they are the same [circle](#), whatever are their sizes, from the [point](#) or the [dot](#) (the [circle](#) of [radius 0](#) or [radius Alpha](#)) to the [circle](#) of [infinite radius](#) ([radius Omega](#)). And any [model](#) of a [generescent fractal](#) is the same [fractal](#). So we have here the [equalities](#):  $\dots = 1/27 = 1/9 = 1/3 = 1 = 3 = 9 = 27 = \dots$ , that are [equivalences](#).

This is another [generescent fractal](#), the [Sponge of Menger](#), a [Fractal 20](#):

Indeed, the coloured [model](#) is repeated [20](#) times ( $8 + 4 + 8$ ) to have the [greater model](#). And in the same way [20 smaller models](#) are repeated to form the coloured [model](#). And the [great model](#) the picture is showing will be repeated in the same way, [20](#) times, to have another [great model](#) and so on. The formula of that [Fractal 20](#) is: « $X = 20X$ » or simply: « $1 = 20$ », so we have these [equalities](#):  $\dots = 1/8000 = 1/400 = 1/20 = 1 = 20 = 400 = 8000 = \dots$ , that are [equivalences](#) once again.

The following example shows a [segment](#) as a [Fractal 3](#) :

If instead of sharing the [segment](#) in [3](#) parts or repeating an [unit 3](#) times to have a [greater unit](#), we choose to share in [2](#) parts or repeat an [unit 2](#) times to have a [greater unit](#), the same [segment](#) can be described as a [Fractal 2](#). If we choose to share in [10](#) parts, it will be a [Fractal 10](#), and so on. By the way, this means that our

decimal number system is a [Fractal 10](#), and any number system is a [generescent fractal](#). The same segment can be described as a [Fractal n](#), where [n](#) is any given integer, including the case of 0 or the [infinity](#), that is to say  $\omega$ ! If the [segment](#) is divided by  $\omega$ , each part is called a [point](#) or a [dot](#) or a [pixel](#). And if divided by 0, each part is called a [line](#). As already said, in [fractal logic](#), we do not care about the size of [models](#), only the [model](#) is important. In that logic, a [point](#), a [segment](#), a [line](#), are [equivalent](#), they have a same logic, a same property, described by a [number](#) from 0 to  $\omega$ , from [Alpha](#) to [Omega](#)!

And also, as already said, [everything](#) in the [TOTAL Universe](#) is a [generescence](#) (of unit U), [everything](#) is [unary information](#), so [everything](#) is fundamentally a [number](#). The [TOTAL Universe](#) is the greatest [Generescent Fractal](#), the [Fractal  \$\omega\$](#) , and this means two things. First, this means the [Fractal](#) is made of  $\omega$  [models](#) of the [Fractal](#), that is to say an [infinity](#) of [models](#). This is expressed by the formula:  $X = \omega X$ , or simply:  $1 = \omega$ . So we have [equalities](#):  $\dots = 1/\omega^3 = 1/\omega^2 = 1/\omega = 1 = \omega = \omega^2 = \omega^3 = \dots$ , that are [equivalences](#). Secondly, the [Fractal  \$\omega\$](#)  means that for any given integer [n](#), the [TOTAL Universe](#) is a [Fractal n](#). So He is a [Fractal 0](#), a [Fractal 1](#), a [Fractal 2](#), a [Fractal 3](#), a [Fractal 4](#), and so on.

In [fractal logic](#), we don't have the «0» or the «vacuum» as usually conceived in this world. As already said, this one is as fake as the infinity noted « $\infty$ », that is why it is impossible to divide by that fake 0 to get the corresponding infinity and vice versa. But the definition of the [true 0](#) is simply the [fraction](#) « $1/\omega$ » (or «[1 divided by the infinity](#)»). Therefore, the definition of the [true infinity](#) ( $\omega$ ) is simply « $1/0$ ». The Devil doesn't want us to do that operation in his fake sciences, because that operation leads us straight to the [TOTAL Universe](#), the [Alpha](#) and the [Omega](#), the [True GOD](#).

The [fractal logic](#) and the [cyclic logic](#) are very closely linked. The only difference between them is that the [fractal logic](#) is a [multiplicative logic](#) (the [Alpha](#) or the [neutral element](#) is 1, and we begin counting with 1), while the [cyclic logic](#) is [additive](#) (the [Alpha](#) or the [neutral element](#) is 0, and we begin counting with 0). In [cyclic logic](#), the definition of the 0 is simply  $\omega$ , therefore we have the [equality](#): « $0 = \omega$ », I call the expression of the [Cycle  \$\omega\$](#) . An [equality](#) of the form: « $0 = n$ », where [n](#) is any given integer, is the [Cycle n](#).

The [divine equality](#), the [equality](#) of the [Divine Science](#), is the [equivalence](#), the [general equality](#), currently known as the «[equivalence relation](#)», the [equality](#) I note now « $=$ ». A particular case of [equivalence](#) is the [identity](#), the current equality, I note now « $==$ » and mainly used in definitions (to define a [thing](#) is to express its [identity](#)). For example « $\omega = 1/0$ » means « $\omega == 1/0$ », the definition of the [infinity](#) as the [division of 1 by 0](#). And we can see in the [fresco #5](#) the [equality](#) « $x = \omega - x$ », which is an [equivalence](#), and the [equality](#) « $-x == \omega - x$ », we could also write « $-x = \omega - x$ », which is an [identity](#), precisely the definition of « $-x$ », currently called «[minus x](#)», but I call «[anti x](#)».

Each [thing X](#) has its [own identity](#): « $X == X$ » or « $X = X$ ». An [equivalence](#) is a [common identity](#) of two things [X](#) and [Y](#) (different or identical), [equivalence](#) which is thus written: « $X = Y$ ». The [Divine Law](#) is the [universal equivalence](#), « $X = Y$ », which I call the [XERY](#), and that means: « $X \text{ ER } Y$ », where «[ER](#)» simply means «[equivalence relation](#)». That [relation](#) is the verb «[To BE](#)» of the [TOTAL Universe](#), the [GOD](#) whose name is: «[I AM the Alpha and the Omega](#)», or simply: «[I AM](#)». He is the [common identity](#) of [all things](#), the [Supreme](#) and [Single Identity](#), the [ONE](#).

All is said, but all is to be said. Now will follow some «[frescoes](#)» of the [Divine Science](#), that explains the [divine logic](#) we need to acquire. This is not the explanation of the [frescoes](#), but only their introduction. It is for you to understand them. A picture speaks more than a whole book. So, please, open your intelligence to understand the deep things expressed by these simple pictures. They are the antidote of all that the Devil expresses in his frescoes or shows these end times.

Even with the help of the most powerful artificial intelligence (AI) in the world, you could not find even a little way to decode **Codun**.

Indeed, your logic, which is the usual logic, the logic of the "Matrix", would lead you very quickly in a dead end or on wrong ways, very far from the **Truth**, **Reality**, **Univers TOTAL**, **Alpha** and the **Omega**, who is **GOD**, the **true one**, the **Unique**!

And yet **Codun** is a picture-code of a childlike simplicity! Much simpler than a barcode ....

Too simple even to constitute a Crop Circle motif, doing a little wink to the "new agers" friends, who are worshipers of these rural motifs, where the rule is rather the complexity.

**Codun** is therefore much simpler than the Crop Circle, and yet the **TOTAL Universe** is fully encoded in it! A usual computer code (that of an artificial intelligence) would require an INFINITE image, an image that is simply the **Universe TOTAL** himself! It is, of course, impossible to represent him on a page in 2 dimensions.

But here, everything is in this picture-code in 2D, and moreover that is not infinite!

The problem with artificial intelligence is that it works in binary mode. But the artificial intelligence is not the one needed here, the **divine intelligence** is the one needed. Here, it is necessary to work precisely in mode ... **Codun**.

The **Science of the TOTAL Universe** is INFINITE. So the **Codun** is very far to be decoded, as you had the proof here. What we said here is just like **1**, and what is to be said again is like **ω-1**. Despite this, we hope that this document is a help for you to start the decoding.

"They" are one with "Sophia", with Artificial Intelligence (AI), they work just to perpetuate the Matrix.

And their intelligence services and all their "intelligentsia" (which is total idiocy in front of **Divine Intelligence**) are concerned only with the survival of their system. These "serpents of Eden" shake in front of everything they perceive as a (potential) threat to THEIR "security" ...

They came here to look in this, for curiosity ... or for fear, just to see if this poses a threat to them and for their system ...

They are like yesterday, their predecessors, before the **parables of Christ**. Let them believe they have understood everything, because we gave them the feeling of having decoded everything .... The feeling of having have decoded **Codun**.

But, in fact, they have understood nothing, simply because they are not able to understand. For that they need the **Divine Logic**. That **logic** even explained, they can not catch any little crumb. They see all what is said as "foolishness" or "delirium", when in fact they are the real foolishness and delirium... (1 Corinthians 1: 18-25; 2: 10-16). One must have a little **divine intelligence** to understand. And that is here all the problem.

They need to have a **heart** or a **soul**, but they have not, and they do not want to have one. For they do not want to connect to the real **God**, the **TOTAL Universe**, the **Alpha** and the **Omega**. The **divine secret** is for them "occultism" and "esotericism", because they only know these kind of things, they love satanism, the "lights" of Lucifer.

They are not able to do **real science**, even their sciences are in fact esotericism and kabbalah, these are simply like their Freemason system, their secret societies knowledge, accessible only to insiders. Here, in that Freemasonry, which is just a little more open to the general public, the lodges are called "universities", and Freemason masters are called "professors" or "experts".

So, let them believe they have understood everything, let them have the feeling we gave them that **Codun** is decoded for them....

They go on their way, they have to go to the **recycling** point, the point **Alpha** (Revelation 20: 1-3, 7-15, 21: 8). Or rather (it is exactly the same), we leave them to go to the **Universe TOTAL** (Revelation 21: 1-7: 22: 1-17).

To you, who love **Truth** and **true Science**, **Peace** and **Divine Love**.

The doors of the **TOTAL Universe**, of **Eternity**, of **Life**, the **real one**, are before you ...
